T-01846B-07-0663

Dear Commissioners,

We hope this letter is not too late to state our concerns about the much needed underground utilities for Hillcrest Bay. We are Tom and Cindy McGregor and are permanent residents who live at 914 Swan Drive. Our single lot doesn't have a view but we don't care...it's still wonderful living here.

We would have written previously to show our DEFINITE SUPPORT for the underground utilities but we thought the 60% approval vote was enough validation.

Our main concern: Are the people against this project and claim a financial hardship really in such a situation? Most of these negative votes are from an older group of people who have owned their property for 20 - 30 years and really don't care how our community looks now or in the future. We have actually heard them exclaim "Why should we pay for this...we won't be around for ten more years anyway!"

We believe we truly have a small number of LEGITIMATE neighbors who can't afford this extra debt and therefore many of us are willing to either help out financially or assist them physically with the actual construction work.

Is it fair to stop such an opportunity because of some narrow-minded people? This underground utility project would bring our little unique Hillcrest Bay into the 21<sup>st</sup> century where it belongs.

Sincerely,

Thomas and Cynthia McGregor  
914 Swan Drive  
Parker, AZ 85344
